RESPONSE TO RESTRICTION AND ELECTION REQUIREMENTS

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Restriction and Election of Species requirements of November 22, 2004, Applicant provisionally elects Group I, Claims 1-16, with traverse, the invention noted in the request to be drawn to a display device. Applicant provisionally elects Species I indicated in the requirement to be readable on Claims 1-8 and lists Claims 1-8 as readable thereon.

Applicant traverses the outstanding Restriction and Election of Species requirements on the grounds that it has not been established that there would be an undue burden to examine each of the noted inventions and species claims together.

Under M.P.E.P. § 803, a Restriction is not proper if a search and examination can be made without a serious burden on the Examiner, and the outstanding Restriction and Election of Species requirements have not established that examining each of the currently-pending claims together would result in an undue burden.

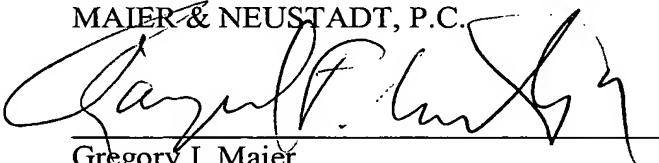

Application No. 10/617,662  
Reply to Office Action of November 22, 2004

M.P.E.P. § 803 specifically states:

If the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions.

The outstanding Restriction and Election requirements have not established that each of the claims could not be examined together without an undue burden, and, thus, all of Claims 1-20 should be examined on the merits.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
